Hundred 2023

Why do clients come to us?

Clients usually come to NextWave because they have key business growth, efficiency and control objectives and are seeking a more future-focused alternative to the big-name consultancies to help them deliver.

What are their key challenges?

Limited internal fintech, industry & transformation capacity and expertise to create effective strategies and leverage the right technologies to deliver tangible business outcomes quickly.

Who are our typical clients?

C-suite (CIO, CDO, COO, CRO, CFO) at global Banking, Markets, Insurance, PE, Wealth or Asset Management firms, >\$1bn revenue with a transformation agenda and portfolio of change initiatives.

What can you achieve?

Complex transformation programme delivery to meet business, operations, risk, regulatory, control and finance goals.

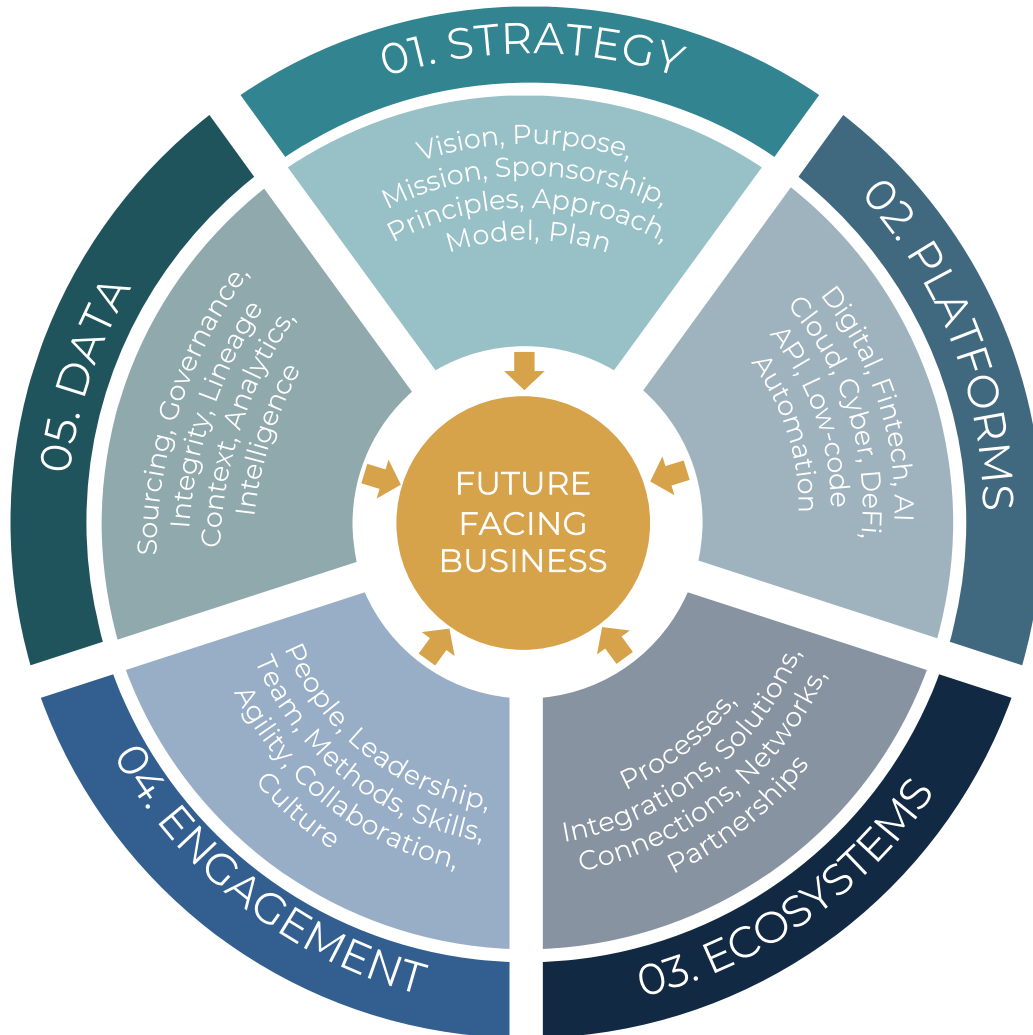

We often deploy fintech and low-code solutions which can typically be delivered 5x faster than traditional approaches, resulting in processes automated from weeks to minutes and data decision accuracy improvements of up to 90%.

How can we help?

Our client work usually involves an initial 6-week strategic review, or a 2-week solution proof of value, followed by agile co-delivery with our clients over 4-6 months and a transition to self-sufficiency and ongoing operations.

The 5 Drivers of Digital Acceleration - SPEED

A future-facing business should be strong in each of these dimensions...

STRATEGY

A strategic approach is required to achieve transformational change in your organisation. Investment in developing your strategy up front paves the way for successful execution.

PLATFORMS

Modern technologies offer not just power, scale, automation and AI capabilities, but also the opportunity to develop new systems and processes at a pace that far outpaces legacy approaches.

ECOSYSTEMS

We operate in a connected online market and the firms that successfully foster & leverage their networks of clients, products, processes, partners, people, platforms and solution providers will get ahead.

ENGAGEMENT

People are the backbone of an organisation, driving its growth, innovation, and success. Focus on skills, culture and ways of working to harness human potential & drive successful business evolution.

DATA

Data is the fuel for all your key business processes and systems. Sourcing, governing, enhancing and leveraging enterprise data to drive intelligence, decision-making and business value is vital.

Strategy - Development & Execution

Growth, Efficiency & Control - CxO Priorities & Approaches...

Deliver a growth and transformation strategy

- Build a convincing business case for investment
- Understand the key value drivers for your business
- Develop unit economics and pricing models

Define and communicate the strategy

- Interweave data and technology into your business strategy
- Build a consistent executive narrative and stories
- Set believable timelines and goals

Understand the transformation

- Develop a roadmap for your strategy execution
- Track progress using milestones and metrics

Align the organisation and equip for success

- Align the organisation structure and your priorities
- Coach your leaders to be successful
- Empower and incentivise your colleagues

Evaluate investments and outcomes

- Leverage industry experience to identify winning strategies
- Understand the potential risks and outcomes
- Review your investments and rationalise your change portfolio

Find the best solutions

- Create a single architecture and operating model blueprint
- Understand when and how to use new technologies
- Quickly identify and evaluate emerging Fintech solutions

Develop new capabilities and future-proof the business

- Build specialist data and technology capabilities
- Develop people with hybrid skills and breakdown barriers

Accelerate delivery

- Automate quickly and incrementally to build momentum
- Leverage people with both business and technical experience
- Use prior transformation expertise to remove roadblocks

Platform Ecosystem - Data, Automation & Fintech Solutions

A focused Technology Partner eco-system...

We work with the latest technology companies, who are at the forefront of making organisations more effective, agile and safe.

Our technology partners are at, or beyond, the scale up stage, and have been carefully selected based on their solutions and the best-in class technologies they use to build them.

Our partners are often guided by our depth of market experience, enabling them to focus on new product offerings and maximising the positive business outcomes.

We are **use-case led**, applying the latest technologies to deliver real business outcomes...fast.

| • Celonis | • StrategyWorks |

7 Team Sizes

- Fast mobilisation of teams of 2-20
- With transformation partners: 20 – 200

Social Enterprise - NextWave One4One

NextWave's unique 'One4One' social impact programme creates a paid internship in tandem with each client engagement, to give socially diverse youngsters their first step in their careers...

One4One has helped 34 young people kick-start their careers over the last 4 years through a unique and immersive internship experience.

Our interns take part in two weeks of presentations, meetings and workshops designed to provide them with a solid understanding of Financial Markets and the changing landscape that is being driven by new technology.

Our clients, alliance partners and internal practice teams all play a part in delivering and mentoring and the resulting energy and insights are dramatic.

Our One4One alumni invariably move forward to more informed higher education choices and great jobs with major firms – some of them now work for NextWave.

To find the best candidates for our One4One programme we partner with Generation Success in the UK, a not-for-profit organisation dedicated to empowering young people of diversity to reach their career aspirations.

Case Studies - Driving Great Business Outcomes

How have we helped our clients?

We leverage **industry expertise** (NextWave leadership have held MD-level roles at top-tier Financial Institutions)

together with...
